From - Until

I have Done Several website Design jobs on Fiverr/Upwork. I have done website User-interface Design and website SEO and Spread Optimization

Web development

FIVERR/UPWORK

From - Until

I have Done Several website Design jobs on Fiverr/Upwork. I have done complete website Design & development A-Z, I had to work on all aspects of the website from Fron-End To Back-End to make acere website live from PSD I did all the coding myself, I also had to take care of the pixel-perfect design and clean code.

PSD to Wordpress

FIVERR/UPWORK

From - Until

I converted a PSD file to WordPress with Elementor Page Builder with Pixel Perfect and SEO Optimized Design.

I had to take care of all aspects of a website that the site looks good on mobile and tablet devices.

PSD to Html

FIVERR/UPWORK

From - Until

I converted a PSD file to Html with W3C validate code, Pixel Perfect, Tested for all modern browsers compatible like (Chrome, Firefox, Safari, Opera, etc.), and SEO Optimized Code.

I had to take care of all aspects of the website so that the site looked good on mobile and tablet devices.
